BEYOND THE BEAT

Uncovering Sound, History, and the Human Mind

Welcome to Beyond the Beat, an educational archive and interactive research center dedicated to exploring the profound connection between music, history, and human neurology. We believe sound is far more than entertainment—it is an enduring record of emotion, technological progress, and psychological well-being.

Our Exhibits & Programs

- **The Evolution of Sound:** Journey from ancient acoustic rituals and classical counterpoint to digital synthesis and modern global soundscapes.
- **Neuro-Acoustic Labs:** Investigate how specific rhythmic frequencies influence brain chemistry, reduce stress markers, and enhance cognitive focus.
- **Interactive Sound Gallery:** Experience immersive audio installations designed to stimulate neural plasticity and auditory entrainment.

Plan Your Visit

- **Location:** 800 W University Pkwy, Orem, UT 84058
- **Phone:** 801-863-8888
- **Email:** curator@beyondthebeat.org
- **Website:** Check out our online exhibits, ask our research team questions, and book your session online today!
